Brilliance China Core Long Short Fund (the “Fund”)

Class B (JPY) Shares (ISIN:IE00BMPRR429)

The Fund is a sub-fund of Brilliance Asset Management ICAV (the “ICAV”)

Maples Fund Management Ireland Limited (the “**Management Company**”)

Objectives and investment policy

Investment Objective:

The investment objective of the Fund is to aim to generate long-term capital appreciation for its investors.

Investment Policy:

The Fund will seek to invest in a diversified portfolio, in accordance with its investment strategy, with the principal focus being on a long-short China equity strategy.

The Fund obtains exposure to equity securities issued in China directly through the Hong Kong-Shanghai and Hong Kong Shenzhen stock connect programs and synthetically through total return swaps.

The Fund is China focused and may also invest up to 30% of its net assets in other emerging markets.

The Fund may hold long positions in each of the asset classes ranging between 0% and 125% of the net asset value of the Fund and short positions in equity securities ranging from 0% to -125% of net asset value of the Fund.

In addition to equity securities, the Fund may invest up to 10% of its net asset value in other regulated investment funds where such investment is consistent with the investment objective of the Fund.

For the avoidance of doubt, any short positions will be achieved synthetically

(i.e. through the use of financial derivative instruments (“**FDI**”)).

The Fund may also use FDIs for the purposes of investment, efficient portfolio management and currency hedging purposes. Such techniques and instruments include options and forwards.

The Fund is actively managed meaning the Fund is run on an entirely discretionary basis.

You can sell your shares every Monday that is a business day on which banks in Dublin and Hong Kong are generally open for business. You must submit your application Citco Fund Services Ireland Limited (the “**Administrator**”) before 12 noon (Irish time) two business days prior to the business day on which you want to sell.

Your shares do not pay you income. Income is accrued within the Fund and is reflected in the value of shares.

Risk and reward profile

The indicator above illustrates the position of this Fund on a standard risk/reward category scale.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean investment is “risk free”.

You may lose the amount you have invested; the above indicator is not a measure of such risk.

The indicator opposite does not take account of the following risks of investing in the Fund:

PRC Market: The Fund invests substantially in securities issued in mainland China, it will be subject to risks inherent in the China market and additional concentration risks. The existence of a liquid trading market for China A-Shares may depend on whether there is supply of, and demand for, such China-A Shares.

Suspension of the China A Share market: Securities exchanges in China typically have the right to suspend or limit trading in any security traded on the relevant exchange; a suspension will render it impossible for Brilliance Asset Management Limited (the “**Investment Manager**”) to liquidate positions and can thereby expose the Fund to losses.

Emerging market risk: The Fund invests in some overseas markets which carry higher than average investment risks. Some countries are not always well regulated or efficient and the Fund may have problems or delays in getting its investments back when required. The securities of emerging countries may have substantially less trading volume, resulting in a lack of liquidity and high price volatility.

Counterparty Risk: The Fund may have material investment exposure through contracts with a third party (e.g., derivative counterparties).

For more information on risks, please see the section entitled ‘Risk Factors’ in the prospectus of the ICAV.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	1.00%

Charges taken from the Fund over a year

Ongoing charge	4.27%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	20.00% of the performance above the highest previous net asset value per share.
-----------------	---

The entry and exit charges shown are maximum figures that might be taken out of your money before it is invested, and before the proceeds of your investment are paid out, respectively, and in some cases you may pay less.

In the year ending 31 December 2024, the performance fee charged was 0.00%.

The ongoing charge figure shown is an estimate. An estimate is used as the ICAV believes that this figure will more accurately reflect the maximum ongoing charges going forward. This figure may vary from year to year and excludes performance fees and portfolio transaction costs, except where an entry/exit is paid by the Fund when buying or selling shares in another collective investment undertaking. The Fund's annual report will include detail on the exact charges made.

More detailed information on charges can be found in the prospectus under the section entitled "Fees and Expenses".
